

## **General customer information on packaging in Germany**

### **h+s Präzisionsfolien GmbH and Schwab GmbH&Co. KG**

The law on the placing on the market, taking back and high-quality recycling of packaging (VerpackG) defines the requirements for product responsibility for packaging. It contains the general objective of preventing or reducing the impact of packaging waste on the environment.

#### **Disposal of packaging**

In accordance with § 15 Paragraph 1 Clause 5 VerpackG, we would like to point out that we can take back the transport packaging of our products on request in accordance with the provisions of § 15 Paragraph 1 VerpackG.

By returning the item, you help ensure that undamaged packaging can be used again. If possible, damaged packaging is fed into the material cycle or disposed of professionally. However, you are not obliged to return the transport packaging to us.

We recommend handing over the cardboard product and transport packaging directly to a disposal company. In this way, we jointly avoid additional transport, effort and emissions. In addition, we contribute to environmental protection through resource-saving waste management.

#### **Licensing of packaging**

h+s Präzisionsfolien GmbH and Schwab GmbH&Co. KG does not ship packaging that is subject to system participation according to § 3 (8) VerpackG, since we only deliver to commercial customers (B2B) and the end customers of our products are typically not

private consumers or comparable sources according to § 3 (11) VerpackG.

Therefore, there is no obligation to license our sales packaging via a dual system according to § 7 VerpackG.

### **Substance Restrictions**

The placing on the market of packaging or packaging components in which the cumulative concentration of lead, cadmium, mercury and chromium VI exceeds the value of 100 milligrams per kilogram is prohibited.

All products from h+s Präzisionsfolien GmbH and Schwab GmbH&Co. KG are developed and manufactured in accordance with the applicable regulations.

To the best of our knowledge, the packaging we deliver to you does not contain any substances whose placing on the market is prohibited in accordance with the Packaging Directive (94/62/EC) (Article 11) or the law on the placing on the market, the return and the high-quality recycling of packaging (§ 5) (Packaging Act ).
